LEARN INTERIOR DESIGN, THE INDUSTRY WAY

B.Des in Interior Design

The Bachelor of Design in Interior Design programme is designed to develop creative confidence, spatial thinking and professional readiness. Starting with a multidisciplinary foundation year, the programme builds skills in spatial design, materials, digital tools and real-world projects. As students progress, they work on residential, commercial and experiential spaces, while developing the confidence, portfolio and industry exposure needed to step into the design industry or start their own practice.

Course Highlights

- AI Integrated Curriculum
- Celebrity Mentorship
- 100% Placement Support
- Entrepreneurship Guidance & Support
- Global Exposure
